PROFESSIONAL SUMMARY

A passionate Information Technology student with 3 years of development experience as a programmer. I'm looking for an opportunity to apply my knowledge and skills as a programmer, to assist and support your team in achieving company success. As well as gain new knowledge and skills. With the help of your company, I know that I will learn new things not only in programming but all the capabilities that an employee should have. Displayed strong positive attitude towards colleagues. Participated in activities while producing significant outcomes. Gained programming experience as a Full Stack Dev for a capstone project and as a freelance web developer for a startup company.

WORK EXPERIENCE

Game Developer, BPSU

2026-Present

- Designed and developed a Space Impact based game called SoloShoot the main theme is about Solo Leveling. Integrate features like shooting daggers, item drops, and modern GUI. We used Java and JavaFx.

Backend Developer, BPSU

2025 - Present

- Designed and developed a Point of Sale (POS) system for a coffee shop to manage sales, inventory, and transactions efficiently. Integrated features including real-time inventory updates, sales reporting, and user-friendly interfaces to enhance operational workflow and reduce manual errors.
- We used JAVA programming language and Eclipse for the IDE

Frontend Developer, SPVAI

2023 - 2025

- Developed and designed a user-friendly personal student website with various functionality and applied effective layout, coding, content creation using HTML, CSS and PHP.
- Coded using HTML, CSS, and JavaScript to develop features for both mobile and desktop platforms.
